

PowerG Wireless Two-way Keypad

WK-141

WK-141 is a portable, wireless, two-way keypad for DSC WP. It enables easy arming and disarming of the alarm system and initiation of emergency, fire and panic alarms. It also controls programmable outputs (PGM) and X-10 devices from anywhere in the premises. Two-way communication with the control panel provides homeowners with visual indication of successful command execution and system status.

Specifications

Battery type	3V, CR123A Lithium Battery
Battery life	4-5 years with typical use
Weight (including battery)	107g (3.4oz)
Operating temperature	0°C to 49°C (32°F to 120°F)
Operating environment	Indoor
Dimensions	127 x 70 x 24 mm (5 x 2.75 x 1 in)

Key Benefits

- Ideal for arming, disarming, emergency signaling, home automation and remote control applications
- Indicates entry and exit periods even when not touched by a user
- Audible exit warning
- Typical indoor range: 50-100m
- Based on PowerG RF technology
- Visual indications for system status, troubles and memory status
- Wall-mount bracket
- Proximity reader

Compliance

CE, FCC

The Power of PowerG:

The power behind PowerSeries Neo and iotega systems lies in various innovative technologies, including the revolutionary PowerG, which power a robust and feature-rich platform designed to reduce operational costs for dealers, and provide ultimate reliability for end users.

- Multichannel, Frequency Hopping Spread Spectrum technology – to overcome frequency blocking and interference
- Adaptive transmission power – for battery life preservation
- High transmission ranges – for reliable communication
- TDMA synchronized communication technology – to prevent message collisions
- 128 bit AES encryption – for high-level protection against analysis tools and digital attacks
